Dear Public Service Commission of South Carolina,

Thanks so much for the review of my information in regard to the above rate request, I have lived in my home about 5 years now and since my move in the water has gotten little by little worse, at this point we do not drink the water unless cooking. If you look at our toilet you might see why, and our toilet is in this condition every other day, there is only my self and wife at home our children have gone, I am in the construction business so I have a since of what good water is, although I doughty our water will kill us, we still prefer not to drink it, I do understand all the testing that has to be done, and the pollution excuses as well,

But at the same time when and if I get a salary increase, I have never gotten above 12%, as I am sure you all maintain about a 3% increase per year as most of us do, I have not seen any water improvements in my area in the 5 years. I have lived here, at times we do not have enough pressure to take a good shower, I would also add a 48% increase is a little much, and in regards to damage repair, I took pictures of the vault in front of my home in the street that has been broken for 2 years by a large lost truck, and to date nothing has been done but if it is ran over again it will cost some \$4000 to repair again I stress I am in the construction industry and my site water is tested like all others, in regard to the vault where a \$300 box would protect what is a main meter valve and if broken will shut down 4 homes, in closing

NO I DO NOT FELL A 48% INCREASE IS EVEN IN THE BALL PARK, HALF WOULD EVEN BE HARD TO SWOLLO SO PLEASE THINK ABOUT US, I AM ONE OF THE UNEMPLOYED, I HAVE BEEN OUT OF WORK FOR 1 YEAR OUT OF THE LAST THREE,

Respectfully yours,

Jimmy D Massey
